

Lab Sans Pro

Lab Sans Pro is a geometric sans-serif typeface with a technological and minimalist look and is suitable for use in large sizes. It has eight versatile weights including true italics for each, and a wide range of stylish alternate characters to improve its use in different graphic contexts. The name of this typeface was inspired by an experiment, mixing a structure with calligraphic influences and completely geometrical and structured drawings.

Versatile but original, precise but lively, Lab Sans Pro is a carefully crafted technological typeface.
